REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a dual-bit NROM memory device. The independent claim 1 recites a method for reading a bit of a memory cell in a dual-bit NROM memory device comprising the step of comparing the data of a bit to be read with data of a multi-bit reference cell having a first bit at a first non-ground programmed state and a second bit at a second non-ground programmed state. The PRIOR ART fails to disclose or suggest such a multi-bit reference cell having a first bit at a first non-ground programmed state and a second bit at a second non-ground programmed state for reading a bit of a memory cell in a dual-bit NROM memory device such as the independent claim 1, therefore, claims 1-5 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
